

MIRIKEL™ QualiTen

Botanical Drink Mix

IMPROVE YOUR
QUALITY OF LIFE

ABOUT THE PRODUCT

To help you achieve a healthy diet, researchers at YiJia’s Research and Development Center have spent over five years designing the revolutionary MIRIKEL QualiTen drink mix. This plant-based supplement contains over 15 natural berries that are rich in antioxidants. Additionally, rose and grape extracts are added to revitalize your body further with polyphenols, resveratrol and Vitamin C. With these powerful nutrients, MIRIKEL QualiTen is sure to benefit your health and well-being.

- Vegan
- Gluten Free
- Non-GMO
- No added preservatives or additives
- No artificial coloring or flavoring

FEATURED INGREDIENTS

- Rose Extract
- Grape Extract
- Mixed Berries
- Coenzyme Q10

WHY MIRIKEL QUALITEN?

Clinically Shown to Support Your Skin Health*

Your skin produces free radicals with oxidation. They cause damages to the intracellular deoxyribonucleic acid, and they accelerate the aging process. Two key ingredients of MIRIKEL QualiTen, Rose Extract and Grape Extract, are clinically shown to support skin health. Researches show that rose extract has anti-inflammatory benefits and can help to soothe the skin. Grape extract is known to reduce the effects of oxidation and may enhance the skin’s

collagen production. MIRIKEL QualiTen works to amplify your natural beauty from within.*

Clinically Tested to Support the Cardiovascular System*

Cardiovascular disease is the leading cause of serious medical conditions around the world. Unhealthy lifestyles (including excessive smoking, alcoholism, irregular diet, and lack of exercise) can lead to damaged blood vessels, vascular occlusion and induce cardiac disease. QualiTen contains Mixed Berries that are clinically tested to benefit your cardiovascular system, keeping you full of energy.

Clinically Studied to Enhance Blood Circulation and Protect Blood Vessels*

An unhealthy diet can cause blood clots, which may lead to shortness of breath, muscle cramps, and pain in your limbs. To combat these issues, QualiTen has added Coenzyme Q10 which is clinically studied to enhance blood circulation and protect your blood vessels.

DID YOU KNOW?

- The rosehips are the most nutrient-filled part of the whole plant, and they are often discarded without a thought. Beauty scientists definitely do not throw the rosehips away. They process the rosehips to separate the water from the oil, vitamins, minerals, and plant components. Then they discard the solid parts. The result is a smooth and fragrant liquid called rose extract.
- Coenzyme Q10 is an essential substance that is normally synthesized in the human body.
- The work of Dr. Peter Mitchell showing that CoQ10 was essential in the energy transfer process to

synthesize the high-energy molecule adenosine triphosphate (ATP) in mitochondria won him the Nobel Prize in 1978.

Q&A

How is QualiTen to be consumed?

Add a pouch (10 g) of QualiTen into 150 ml of lukewarm water and stir well.

Can I drink QualiTen while on medication?

QualiTen contains no harmful ingredients, but each person's physical condition is different. It is recommended that you consult a physician before drinking QualiTen if you are on medication.

Can I lose weight with QualiTen?

QualiTen has a variety of fruit extracts rich in vitamins, which can enhance intestinal peristalsis and benefit normal metabolism. It is also rich in fat-soluble vitamins that promote burning of fat during exercise, maintaining body balance.

How does rose extract support skin health?

The antioxidant components of rose extract help fight cellular aging. Research shows that the antioxidant components, including those called hexane fractions, will actually fight against chemicals that speed up cell aging. Rose extract is so powerful that lab studies showed that it lengthened the life span of mice.

Another way in which rose extracts helps to reduce the appearance of skin aging is through the stabilizing effect of components in rosehips on the membranes of skin cells. In other words, rosehip products help protect the outer part of cells from being broken down. This keeps skin looking and feeling plump and supple, and it can help improve the appearance of the skin while reducing wrinkles.

What is Coenzyme Q10?

Coenzyme Q10, also known as CoQ10, is a nutrient synthesized in the human body, especially in the heart where it is most abundant. Coenzyme Q10 is present where the human body needs functional energy.

How much Coenzyme Q10 is there in the main ingredients of QualiTen?

Each 10 g of QualiTen contains 30 mg of Coenzyme Q10.

For which group of people is QualiTen suitable for drinking?

QualiTen uses high-quality natural ingredients for good health and can be used by both young and old men and women. However, we recommend that pregnant women and people on medication consult a physician first before drinking QualiTen. Moreover, QualiTen is not suitable for children under the age of 7 and people who are taking anticoagulants.
